

DAY	TIME	TYPE	AUDITORIUM	BALLROOM B/C	BALLROOM A	302-304	312	311	POSTER HALLS		
SUNDAY 2/3/08	9 am-1:40 pm	Workshop				1. Program Committee Workshop for New Investigators and Trainees			Poster Set-up 8 am-8 pm		
	10 am-1 pm	Workshop	2. Host Genomics Hands-on Computer Workshop (Rm 100-Computer Lab)								
	2-4 pm	Opening Symposium	3. Scale-up of HIV Prevention and Treatment in the Developing World								
	4-6 pm	Opening Plenaries	4. 13th Bernard Fields Lecture and 2nd N'Galy-Mann Lecture								
	6-8 pm	Welcome Reception (Halls C and D)									
MONDAY 2/4/08	8:30-9 am	Plenary	5. Morbidity and Mortality in the HAART Era							Posters Open 7 am-7 pm	
	9-9:30 am	Plenary	6. Searching the Genome for Determinants of Response to HIV								
	10 am-12 n	Oral Abstract Sessions	10. New Antiretrovirals and Clinical Trials	9. Prevention Strategies	8. Viral Pathogenesis and Immune Surveillance	7. Epidemiology of SIV/HIV Infection and AIDS-related Malignancies					
	1-4 pm	Poster Sessions									
	2-3 pm	Poster Discussions				13. Emerging Patterns of Resistance to New Antiretrovirals	12. New Approaches to HIV Testing	11. Lymphocyte Depletion in the Gut			
TUESDAY 2/5/08	4-6 pm	Symposia + Oral Abstract Sessions	<b>Oral Abstract Session</b> 17. Hepatitis Co-infection	16. Curbing the US Epidemic	15. Voyages through the Cell: Imaging Viral Traffic	<b>Oral Abstract Session</b> 14. PMTCT					
	8:30-9 am	Plenary	18. Challenges in Pediatric and Adolescent HIV Care							Posters Open 7 am-7 pm	
	9-9:30 am	Plenary	19. Natural Enhancers and Inhibitors of HIV Infection								
	10-11:30 am	Oral Abstract Sessions	23. HIV Vaccines	22. New Mechanisms of Resistance and Virologic Failure	21. HIV in Women and Children	20. Insights into Neuropathogenesis					
	11:30 am-12 n	Plenary	24. Scientific Obstacles to an Effective HIV Vaccine								
	12 n-12:30 pm	Plenary	25. AIDS Vaccine at the Crossroads								
	1-4 pm	Poster Sessions									
2-3 pm	Poster Discussions			29. TB-associated Immune Reconstitution Inflammatory Syndrome	28. Novel PrEP Agents and Evaluation Strategies	27. Risk Factors for Lost-to-Follow-up in Resource-limited Settings	26. Clinical Developments in Neuropathogenesis				
WEDNESDAY 2/6/08	4-6 pm	Symposia + Oral Abstract Session	33. Targeting TB: New Opportunities and Challenges	32. Aging and AIDS	<b>Oral Abstract Session</b> 31. HIV Molecular Biology and Host Cell Interactions	30. The Emerging Science of HIV Prevention in Women					
	8:30-9 am	Plenary	34. Advances in Management of Treatment-experienced Patients: A 2 <sup>nd</sup> Wave of HAART							Posters Open 7 am-6 pm	
	9-9:30 am	Plenary	35. New Insights into Retrovirus-Host-cell Interactions								
	10 am-12 n	Oral Abstract Sessions	39. Cardiovascular Risk, Mortality and TB Complicating HIV Infections	38. Drug Delivery, Interactions and Genetic Variability	37. Epidemiology of HIV Infection and Scale-up of ART in Developing Countries	36. New Insights into Mechanisms of Viral Pathogenicity					
1-4 pm	Poster Sessions										
WEDNESDAY 2/6/08	2-3 pm	Poster Discussions				42. Maternal ART and Feeding Practices: Impact on Infant Outcomes	41. Molecular Epidemiology: The Americas	40. New Insights into APOBEC Proteins		Poster Removal 6-9 pm	
	4-6 pm	Symposia	45. Individualizing Patient Management	44. Frontiers in Vaccine Research	43. Accessory Proteins and Intrinsic Resistance
